Benefits of corporate housing

- *Bottom line savings*
 - Compare our home-like environment and personal service to a hotel and you'll find there really is no comparison. The Estates will make you feel right at home for less than the daily cost of a hotel.
- *Fully Equipped*
 - Your fully furnished executive suite includes all of the amenities as shown above. Optional services include high-speed cable internet and housekeeping. There is no need for you to eat three meals a day in expensive restaurants. You can shop at the local grocery stores and cook your own food and eat while in the comfort and privacy of your own home.
- *No checking in and out of hotels*
 - Living out of a suitcase is tiresome and stressful. With an executive suite, you do not have to pack on Fridays, carry luggage back and forth through airports and unpack upon your arrival. You can travel home to families with nothing to carry but a briefcase. There is no need to worry if your hotel room is going to be available during "prime time periods"; no concern if the rates have stayed the same or risen to "peak season" pricing!
- *Improved quality of life*
 - Living in a small hotel room for extended periods of time can take a toll on the stability of your overall well being. The Estates are spacious one, two and three bedroom apartments. Underground parking is included and all buildings are controlled access with intercoms in the front lobby.
 - Washers and dryers in the unit will give you your personal space and privacy with out the expense of coin operated machines or send out facilities.
 - You do not have to feel like you are in a constant state of transition. When you stay at The Estates you can begin to establish a normal day to day routine and feel at home in your new environment. This will give you more freedom to explore your new community and learn about the city.
